A DYNAMITE FIEND'S PLOT

Caught Just in Time to Prevent Fearful Carnage at New Rochelle.

TRIED TO KILL 100 ITALIANS.

He Had Planted Nine Cartridges Under a Workmen's Shanty Where People Slept.

WAS ARRESTED AFTER A FIGHT

Riley Was About to Explode the Mine by Electricity When Dis-

covered by a Watchman.

NEW ROCHELLE, N. Y., Oct. 22 .- A perate attempt was made last night blow up a shanty about a mile from village and near Glen Island. Had the plot succeeded it is probable that about 100 Italians who were in the place would have been killed and great dam

age would have resulted to adjoining property in the neighborhood. The Italians and the Irishmen em ployed as laborers on the new sewer near Glen Island have had frequent encounters owing to race prejudice. About three weeks ago there was a pitched battle between them, and since then the light has been renewed at intervals. Patrick Riley, twenty-four years old, swore that he would be revenged for some wrong the Italians did him. The Italians laughed and told him to do his worst. All the Italians lived in the shanty provided by the contractors. On Saturday night Riley got the key to the tool-box, and, after all the other workmen had gone home, he went to the sox and took out nine dynamite cartridges, the dynamite battery and all the vires used in blasting. Riley did not say just what he wanted at the tool-box and no questions were asked him. He took the cartridges and the other things to his home, and about 9 o'clock last night went with them to the Italian shanty. Riley, who is an expert dynamiter, put the cartridges under different parts of the shanty, ran the wire along the ground to the battery, and was about to explode the cartridges when he was discovered.

In the shanty were attracted by the moise, and ran out.

As soon as they learned that Riley had tempted to burn them up, it was with difficulty that they were restrained from killing him. Threats were made against him, but he was finally landed in the New Rochelle lock-up.

Riley, before coming to work here, was employed as a dynamiter at Fort Lee, where a part of the Palisades are being blasted. He says he is only sorry he was discovered so soon, as if he had not been seen for another minute it would have been all over, and he would then be attended.

be satisfied.

The sewer is being put through Weyman avenue, in the aristocratic part of New Rochelle. Many prominent families reside in the neighborhood.

Riley was arraigned before Justice Tierney, in the New Rochelle Court, today and was held without bail for the action of the Grand Jury. He will be taken to White Plains.

Hong, alias Hong Hop, and Hong Sin, alias Ah Hong Sling, on the charge of arson, United States Fire Inspector and Fire Marshal Conway, have brought themselves and the police on the one hand, and some of the most influential Chinamen in the United States, the prisoners being nong them, on the other. moid them personally responsible for the safety of the two officials whose lives have been threatened.

Sam Moy and Hop Lung are the richest Celestials in Chicago, and for years they have ruled supreme among their countrymen here. Conway and Cowiesere determined to convict the prisoners, against whom the most overwhelming evidence exists.

When Hong Sling was taken into custody, thirty-four annual passes on different American railroads were found on his person, which, Mr. Cowies says, indicates that he has been engaged in smuggling Chinamen into the United States on a large scale. The passes were made out in the name of "Ah Hong Sling."

Yesterday Cowie found it necessary to go into Chinatown to get two witnesses who had notified him they feared their lives were not safe. Altogether he has eight witnesses, and says they are in safe keeping and will be kept from coming into contact with their countrymen until after the arson trial is over. While in Chinatown, Inspector Cowie was told by one of his witnesses that an open meeting of Chinamen had been held in the morning, and that a reward of \$500 had been offered to any one who will kill either Conway or the three witnesses.

Notices to that effect were posted throughout Chinatown to get two witnesses that the beautiful and the firm's cheening to paying the business of the quently absent sign a number ing Emison to When the error event Emison custom to when the sign a number ing Emison to When the error whelm the passes of the paying the business of the quently absent sign a number ing Emison to When the sign a number ing Emison

will kill either Conway or the three witnesses.

Notices to that effect were posted throughout Chinatown directly after the meeting. The Chinamen told Cowie it meant sure death to pull down any of the notices, but nevertheless the Inspector was soon in possession of them. He immediately had it translated. Translated it read as follows:

"To all Chinamen: We swear by all the Chinese Gods that the sum of \$500 will be paid to any Chinaman who sends death to either of the men known as Fire Marshal Conway or Inspector Cowie, or to any three of our countrymen who intend to assist in the prosecutions of men of their race. Death and fire will surely be given to him who betrays or takes down this notice."

It is said that the two Chinamen have fired stores in Sait Lake City and other Western cities, as well as in Chicago.

The coffee pot was examined and traces of the poison were found therein. It is supposed that the dantardly work was done by a Chinaman who had trouble with the steward, and had been discharged. He had made threats and swore to have revenge.

Dondilo, who was subsequently arrested by Policeman Lewis, has a slash on his left arm from the shoulder to the wrist.

A loaded revolver, razor and an icepick were found on the men arrested on the ferry-boat. They admitted attending the christening, and will be used as witnesses. They were committed with Dondilo to await the result of the others' injuries.

In the Burning of the Rev. Ross Taylor's Residence.

Parents Barely Escape-Three Workmen Severely Injured.

NYACK, N. Y., Oct. 22.-The handstone residence of the Rev. Ross Taylor, on top of the hill, west of Hillside avenue, South Nyack, was festroyed by fire this morning.

Four children were burned to death, laborer was so badly injured that it is believed he will die, and two decora-tors who were employed in the building vere seriously burned.

Many people jumped out of bed and hastened out-of-doors, and when the second alarm was sounded a few min-utes later, half the townspeople came out.

Mrs. Taylor first discovered the fire and aroused her husband, who investigated and found they were surrounded by flames. They were almost blinded by the smoke, which was growing denser every moment. They saw that all they could attempt was to save themselves, and even that seemed almost impossible. At length, by hard effort, they reached the open air, and saw that the property must burn down without any hope of their saving the children, whose escape and rescue were cut off.

without any hope of their saving the children, whose escape and rescue were cut off.

Michael M. Mulladey, a laborer, and two decorators, named Edward Linta and William Ruth, jumped from the third-story window and were badly hurt. All were carried to Adolph Fuerber's residence, on Washington avenue, and were afterwards taken to Bellevue Hospital. New York City, by the steamer Chrystenah.

Four Taylor children, Harriet, Ada, Arthur and Schultz, who were on another floor, perished in the flames, but two others, Stewart and William, escaped by jumping from an upper window. Mr. and Mrs. Taylor were taken to the residence of Mr. Potter, on Hillside avenue. The bodies of the four children who were burned to death were found at 7 o'clock this morning and taken to Smith & Tasman's undertaking establishment. The children were aged respectively eleven, nine, seven and five years. Mr. and Mrs. Taylor are under the charge of physicians, and neither can be seen.

Hev. Ross Taylor is the son of the noted Bishop Taylor, the distinguished missionary Bishop to Africa of the Methodist Episcopal Church. Bishop Taylor started self-supported missions in Africa along the Congo and in South America, the special feature of these missions being that the missionaries, while laboring spiritually among the natives, supported themselves, some as mechanics, some as physicians, and has conducted The African News, the organ of 'Bishop William Taylor's Self-Supporting Missions."

It was reported that two girls employed as domestics in the house were

When the Park Commissioners came before the Board of Estimate and Apportionment to-day to ask for \$1,347,960 for expenses next year-an increase of for expenses next year—an increase of more than \$170,000 over last year's allowance, not including the million-dollar appropriation—the interesting discussions expected did not develop. The estimate went through with a few reductions, and nothing was said about the million-dollar appropriation. It had been agreed beforehand, it was reported, that that subject should be carefully avoided in order to prevent scandal before election. The Mayor was extremely polite to President Clausen, and the latter expressed perfect satisfaction when told that his allowance for the year would be \$1,180,552, instead of \$1,347,255, as asked for

President Clausen and the latter expressed perfect satisfaction when told that his allowance for 'he year would be \$1,180,582, instead of \$1,347,85, as asked for.

Mr. Clausen asked \$6,000 for Riverside Park and for work on Seventy-second and One Hundred and Twenty-second sticets. This nearly introduced the million-dollar appropriation subject, as a great part of that amount was supposed to have been spent on this park. The Mayor averted discussion, however, by bunching all special Items in one big litem of \$400,000 for labor and maintenance A request for \$5,000 for planting trees in West End avenue was cut down to \$1.
